About the Lecturer

Dr Zhonghua Fu, the founder of FSN, studied traditional Chinese medicine and obtained his bachelor's degree in medicine at Nanjing University of Traditional Chinese Medicine (NJUCM) in 1990. He then obtained his master's degree at NJUCM in 1999. His dissertation was research on acupuncture techniques.

Over the last 24 years, Dr Zhonghua Fu has showed great talent, interest and enthusiasm in the field of modern acupuncture. He invented the FSN needle and insertion delivery device. He combined ancient Chinese medical concept with modern acupuncture ideas. His "Tightened Muscle Theory (TMT) which enhanced Myofascial Trigger Points (MTrP) theory. He has published four books on FSN, including one English version: *Under the Skin - A Manual of Fu's Subcutaneous Needling Acupuncture* and over 50 papers in medical journals.
